Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ **Time Extension Request**

Specific years requested _2001,2002,2003,_____

Is this a second request? ☒ No ☐ Yes Specific years requested. _____
(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (Not allowed for Regional Agencies).**

Specific ADR requested _ _____%, for the years _ _____.

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested _ _____%, for the years _ _____.

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The City developed an SRRE that they believed would get them to a 50% diversion. This plan was reviewed and approved by the City, the County LTF, and the CIWMB. The City has worked very hard to implement all of its SRRE programs and has added new programs in its attempts to reach a higher. The City believes that one of its barriers to achieving the 50% goal has been bad base year formula information. The City did not incorporate until July 1, 1991 so the base year data for their city was not available. The City continues to try to identify a data source that can be used for the City. The City was able to identify one data source for its base year and current year for population. Utilizing City specific data made more than a 6% positive difference in the City's calculation. The City will also be expanding existing programs and implementing new ones.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City has asked for a three year extension because they feel it will take that much time to implement the programs and see the results of the new programs.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

Current diversion is at 45%. The City has worked very hard to implement all of its SRRE programs and has added new programs in its attempts to reach the 50% goal. The City added thirteen new programs.

- 4. Provide any additional relevant information that supports the request.**

The City is experiencing a much higher growth rate than the County. The City is growing at a rate of 5 to 6% a year. This is about 3,000 new residents per year.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.
